THE CALIFORNIA STATE ELECTION .- The Democrats appear to be having things pretty much their own way in California. Messrs. Scott and Burchall are probably elected to Congress, although their opponents, Messrs. Baker and McBibben, who received the united vote of the Republican and Anti-Lecompton parties, have the benefit of a shight doubt in their favor. The Anti-Lecompton candidate for State Printer, who was also supported by the Republicans, has a slight chance of election. With these possible exceptions, the Democratic Leconiston State ticket is elected by an immense majority. Both branches of the Logislature are largely

We observe that some of the English journalists, actuated, no doubt, by a spirit of envy and malice, dispute the right of Col. H. Tuiler to that military title which he wears with such grace and brillinger. These ill-natured journalists have disposered that the gullant Colonel is not a member of the United States Army, and they before that his colonelar priest only in which they infer that his coloneley exists only in the imagination of himself and his numerous admixing friends. We hereby inform these virulent ignorances that there are thirty-odd States in the Amelican Confederation, each one of which not only boasts her thousands of brave and warlike detenders, but confers the most indisputable military commissions. One of these we understand to have been granted by the State of Rhode Island and Providence. Plantations as a reward of the prowess o Col. Fuller, exhibited at Chepachet in the war against Gov. Dorr and his audacious war against Gov. Dorr and his nulacious rebels in the great and inemorable, though happilly not blondy, day of May 25, 1842, when Dorr was finully defeated. Then, as ever, Fuller was found ready to fight on the side of Liberty and Order, and whoever attempts to diminish his glory prayes his own ignorance in regard to the most important epochs of American history.— New York Tribune.

A most destructive fire occurred on Sun day morning in the Sing Sing Prison, by which several of the manufacturing shops were entirely destroyed. The five originated in the auger-shap, where some eighty or more of the convicts have been employed in the manufacture of augers. The flamporary analysis and some reached the file. spread rapidly, and soon reached the file shop, and the dye-house used for dying yarns for the manufacture of Brussels carpers. About ninety men were employed in the file-shop, which with all its stock, machinery, &c., was entirely destroyed or seriously damaged. Most of the stock and machinery in the dye-house was also ruined. machinery in the dye-house was also ruined. The damage to the buildings is estimated at about \$7,000, which, with the loss of convict labor for sometime to come, will fall heavily upon the State, Contractors were paying the State about \$0.000 a month for the services of the convicts employed by them. It will require a number of weeks to repair the buildings and get the machinery in mining order again, and meantine the convicts are thrown back upon the State. The entire lass is estimated at \$75,000, on which there is an insurance of \$42,500.

Love of Office. A Sketch from Ancest History. Queer men must have lived in the days of Governors Winslaw and Bradford, if we compare them with the generation now upon the stage. Just think a moment of non-so averse to helding office that compulsory laws had to be exacted relating thereto! The authentic record informs us that in 1733 our Paritan Fathers constituted law requires that any nerson. concled a law requiring that any person who should be elected th reafter to the office of Governor should pay a five of twenty pounds sterling if he would not serve.—Strange, indeed, it seems when we view the scrambling after office that characterizes the present age. Fine them for being unwilling to wear the honors? The trouble now is to find a candidate who is content to remain unchosen. By hook or crook, each eligible one is determined to secure the office.—It would be quite a new thing under the star to see our adminis-trators at Washington imposing a fine on those who refuse to share political promotion. Their perplexity now is, among the army of office seekers that invest headquarters to decide who shall be the fortu ante individuals. Neither is it a trivial perplexity. We imagine that they are often at their 'wits end' to know where to bestow the bauble. A host of hands are up to catch it, while only one can grasp and hold it.

A newly imported "help," after being established in a l'ifth arenue palnee as maid of all work, was seen shortly after with a pail full of slops from the kitchen, carefully exploring the music-room, the library, the boudour, the drawing-room and other places, as if in search of something which she could not possibly discover. At last, meeting with the lady of the house, she inquired seriously. (if you plaze, misshe inquired seriously, "if you plaze, mis tress, where's the pig?"

Capt. Joe Napier bravely rescued three men from a wreck, near St. Joseph, Lake Michigan, a few days ago. He had two men with him, but the Lake was rough, and they threatened mutiny and deter-mined to turn back. It was only by using harsh means with them, and declaring in emphatic language his determination to "save or die," that Capt. Napier forced the boatmen to push forward through the roaring waves.

WILMINGTON, Oct. 2.—The City Works invited a large party yesterday to witness the manufacture of gas from water, as sub-stitute for coal gas. The demonstration was in every way satisfactory, the light being very pure and brilliant.

Zocal Facts and Gossip.

THE NEW MUSKETS .- The Newport Artillery Company have recently received an entire new outfit of muskets, sixty in number, furnished by the State. They were manufactured at Springfield, and are of exquisite workmanship, nicely balanced, and about 9 1-2 lbs. weight They are fitted either for a cap or the Maynard primer, by which latter fixtur esixty discharges may be effected with one cap. They fire the Minnie ball, decided to be a great improvement on the old style. Another peculiarity of this musket is, that the bayonet is so secured to the piece as to render its displacement a matter of impossibility except by its holder Twenty more will be added in the Spring.

The Company, we understand, will parade for target practice some time during the pros-ent month, when our citizens will have an op portunity to see the new musket.

The Newport Artillery, always one of the finest military companies in the State, are rapidly improving under the command of Col. Tur ner, and should an occasion ever offer for their services in the field-which God forbid-they will be found in the right place.

There are many interesting relies in and about their armory, among which is an autograph letter of Gen. Washington's, and a piece of brass ordnance, the age and history of which is unknown to the company or any mem ber thereof.

The Company was chartered in 1744, and nany of the original muskets still remain in the armory.

A new contrivunce for shortening sail on fore-and-aft rigged vessels, the invention of Captain Samuels, of the dispur-ship Dreamought, was exhibited on Change on Wednesday afternoon, and attracted much attentionfrom its slimple, sailor like character. It is difficult to describe, but the sail is taken in by turning the main boom with a captann near its foot, working with apparatus attached to the boom and tho sail. The advantages set forth in behalf of this invention are p incipally the saving of time and labor—the sail may be recfed without allering the course to the wind or in any manner stopping hendway.—N. From Venezuela-The Revolutioning Put Down.

NEW YORK, Oct. 4.-Barque White Wing, from Laguayra 16th nlt., Jumishas later advices of the Venezuelan tevolution, The French Charge d'Affaires had been sent out of the country on two days notice, His opposition to the existing government. and participation to the late bloody revolution, are the causes alleged for driving him away. Gen. Rubin, with the government forces, had taken the town of Marguetia, near Laguayre, but the rebel General Aquado escaped. Barcelona had been retaken, and the government forces were everywhere victorious. The revolutionists had committed the most outrageous excosses, murdering and plundering to a fearful extent. From present accounts, bowever, their triumph is at an end.

VESPER GAS LIGHT. The cheapest and best light in use. This is the universal commendation of all who have tried it; while those who have used it longest are still more enthusiastic in its praise. There are few layarizes that ufford a more satisfying pleasure than a brilliant and safe light; such as one may now be had by all. If any are inclined to be skeptical in regard to it, let them cellat.

No. 150 Thumes Street, No. 150 Thannes Street, and satisfy themselves. The style of fixtures resemble those of coal gas; the shape of the flame is the same, it has less flicker, is more brilliant, while it costs less than half as much. All whe are in want of a beautiful light, will do well to call soon. Any who may desire it can have there put up at their rooms on trial, free from charge.

Having purchased the Patent Right for the State of Rhode Island, we are now prepared to sell VESPER GAS FIXTURES of all styles and prices. Also County and Town rights for sale. BEACH & TOBEY, s23 Im pd. No. 159 Thames-st., Newport.
